

Name: _____

Date: _____ Period: _____

Supplemental: Topographic Maps I

Base your answers to questions 1 and 2 on the topographic map below and on your knowledge of Earth science. Points A, B, C, and D represent locations on Earth's surface. Elevations are measured in meters.

1. On the map, draw the 200-meter contour line in the southern portion of the map.
2. On the grid below, construct a topographic profile along line AB by plotting the elevation of each contour line that crosses line AB. The elevations of points A and B have been plotted on the grid. Connect all ten plots with a line from A to B to complete the profile.
