

Name: _____

Date: _____ Period: _____

Supplemental: Actual Motions

Directions

1. Correctly label the solstices and equinoxes as Earth orbits the Sun.
2. Label the location of the Sun with a "S".
3. Lightly shade in Earth's location where the orbital velocity is the greatest.

Revolution

_____ motion around the Sun

Evidence #1: parallelism of Earth's axis

Rotation

Spinning motion on Earth's axis

Evidence #1: _____

Evidence #2: _____
