Mapping the Earth

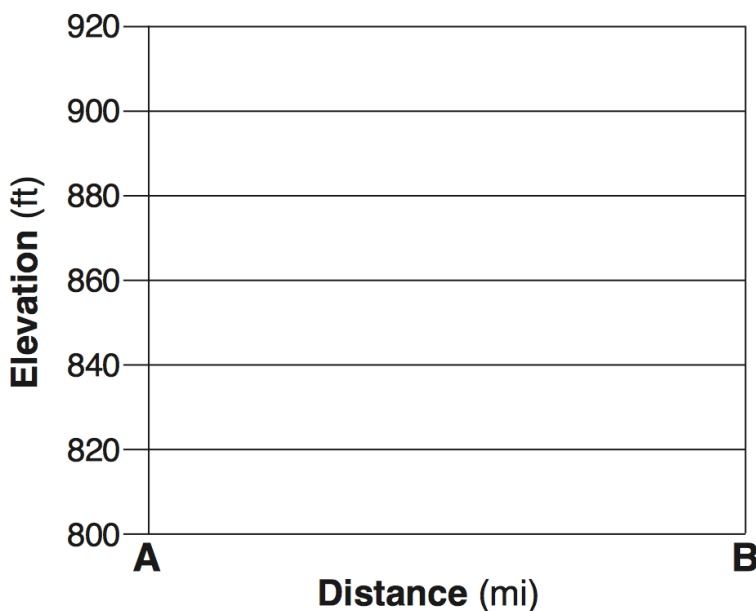

The Physical Setting: Earth Science

Worksheet: Topographic Maps II

Using the topographic map below, construct a topographic profile along line AB by plotting the elevation of each contour line that crosses line AB. Connect the plots with a line to complete the profile.

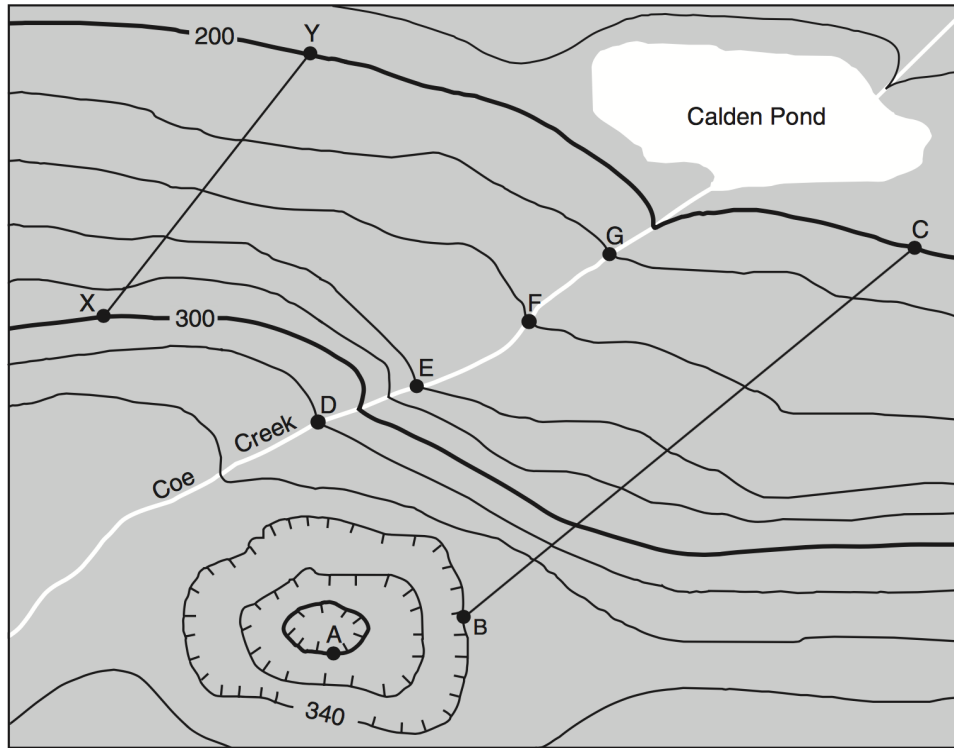

Contour Interval = 20 feet

Worksheet: Topographic Maps II

Using the topographic map below, construct a topographic profile of the land surface along the line from point B to point C. Plot the elevation of each contour line that crosses line BC and connect all nine plots with a line to complete the profile. Elevations are shown in feet.

Contour interval = 20 ft
